Birthday: 3/26/1952

I taught 3rd grade in Iowa City from the fall of 1975 to the spring of 1978. I was a substitute teacher in Lincoln, NE for the next year and then tutored math for a year. In the summer of 1980 our first child was born. I haven't had a "regular" job since. I loved the classes which encouraged thinking and discussing. I loved doing things with friends – especially my "friend", Alan. I now have teenagers who go to ALHS. The perspective is quite different.

Birthday: 02/13/1952

I have stayed here in Council Bluffs the entire 40 years since graduation, and I do not intend to leave! After graduation, I began working with the State of Iowa Vocational Rehabilitation Agency, and I remained there until the birth of my first son in 1976. I married my husband, Gary in 1972, and after our son was born, I spent the next 16 years raising our children and operating an in-home day care. In 1993, I began working as Office Manager for the Grace Counseling Center (Grace University), and then moved to the University of Nebraska at Omaha, where I have been working as an office assistant in the Teacher Education Department for the past 16 years. Besides my work and home responsibilities, I am very involved with my church, working in the library, in women's leadership, and in children's ministries. I also enjoy reading, crocheting, cross-stitch, and, of course, spending time with my granddaughter. My mother and my in-laws are quite elderly, and so I also spend extra time with them, helping to meet their needs. All in all, I lead a very busy and fulfilling life, and am looking forward to what God has for us in the future.

Birthday: 3/7/1952

I was married to David Nowlin for 18 years and had two girls and a boy. Except for living in Colorado Springs for a year I stayed in Iowa. We divorced in 89 and I married Jerome Fantinel in 1990. He had three boys. I moved to Arkansas where he lived and we adopted two girls when they were babies who are also sisters. They keep me pretty busy with cheerleading, gymnastics and Girl Scouts. When I have time for myself I like to bowl. I like to read and sew also but don't have a lot of time for either. I love living here though and enjoy doing things with the girls.

I have been in North Platte, NE since 1974. My husband Steve works for the Union Pacific Railroad as a conductor but hopes to be retiring on April 1st. 2010. We have had some great times and done some traveling but the greatest gift has been our two granddaughters. They make life interesting. I babysit both girls quite a bit and some days I am sure I am too old for this!! I hope to make part of the reunion but not sure which days yet. I wish I could convince my best friend Linda [Hicks] Bolton to come but haven't talked her into it yet. I have been suffering from seizures since 2002 so it has slowed down some of my activities. I still have a good time. It is fun to read the bio's and sad to see how many classmates have died. Hope to see you at the reunion.

Life! I am happy as a single career woman. I golf, ride bikes, have walked the half marathon three times, quickly loosing my skiing skills, and wish I was more then a want-a-be athlete. But it sure is fun trying. I like to travel-- one goal is to keep ahead in the country visited count (I am ahead of daughter Lori by 2) My first career was as a recreational therapist; second career, mom; current career Librarian. I went to graduate school when my kids were in junior high and graduated with a degree in Library Science in 1994. (Have you downloaded books from your local library? Have you checked out a popular video?) I love my daughters- three strong independent women who live in Omaha, DC, and Breckenridge, CO. My dad is still alive and my sister is back home from 20 plus years in NC. I hate mowing the lawn and fixing things such as singing toilets. I like playing and reading and watching vampire TV shows. I will work for several more years and looking for a lake home or an RV so I can travel to state parks and work. I can afford a Fremont Lake home so far (Nebraska). I still need to ride in a hot air balloon, ride an elephant it it's native country and ride in a semi truck. I do have a few more things on my bucket list. My kids could not believe I was going to my 40th high-school reunion. What happened?

After graduation from Iowa State, I moved to San Diego where I entered into restaurant management for three years while enjoying the California sunshine and taking classes at the junior college in preparation to returning to graduate school. After graduate school, I entered into the information technology field as a system analyst for Automatic Data Processing (ADP), where I stayed for three years after. In 1981, I was hired as the IT Manager for Redondo Beach, CA through an outsourcing company, CMSI, a small company based in Portland, OR. I worked for CMSI for 8 years. CMSI was bought by BRC, a large company based in Dallas. I worked for BRC for 8 years. BRC was purchased by ACS, a larger company based in Dallas. I worked for ACS for 8 years. Most of the time I worked for ACS and BRC, I traveled to various client sites performing technology project management, operations management and strategic planning. My favorite work with ACS was working at the proposal center in Washington, D.C. I was married in 1984, during the summer Olympics in Los Angeles. We purchased a small house in Redondo Beach, 6 blocks from the ocean. Addison was born in 1988. We moved to Beaverton, OR in 1993 and purchased our home in Forest Grove, in 1995. Addison will be a senior at Redlands University, Redlands, CA next year and is majoring in Marine Biology. My husband and I are members of the Forest Hills Golf Club. We are active members in the Forest Grove United Methodist Church. We belong to several wine clubs of local vintners near our home. Oregon is one of the largest producers of pinot noir grapes in the country. I also enjoy walking my dog, yoga, gourmet cooking and reading mystery novels.

After school, I joined the Navy to see the world and landed in Meridian, Ms. for my first duty station (3 1/2 yrs) then finally went to sea. Liked it, so I stayed for another 20 years. Decided to retire when the kids that worked for me weren't even born when I joined. After I retired, I returned to Iowa, never any doubt as to where I would retire. Got into over the road trucking. Had seen most of Europe and the Middle East, figured it was time to see the United States. Trucked for 7 years, then decided it was time to stay close to home. Love horses, had a couple when I was stationed in Florida. Would have some here if I could find a place close enough. I like skydiving, fast cars and 4 wheeling. Enjoy gardening also.

We have four grandchildren. After graduation, I first worked part time for my Dad who owned a printing company. But for the last 23 years I worked at National Indemnity Company, part of the Berkshire Hathaway Group. I moved around a lot in the company and took a lot of classes. Since my husband, Roy, retired from the Union Pacific Railroad, he convinced me I needed to retire too so we could travel. I do a lot of painting, drawing, biking, reading, sewing and jewelry making. I took several classes in Sign Language and interpreted at East Side Christian Church for a while. We belong to First Christian Church and I taught Sunday school for many years, but now only help on Wednesday night youth group.

Terry and I lived in Co. Bluffs until moving to Omaha in 1999, then we got transferred to Kansas City, MO and lived there for a couple of years, moving back to Omaha in 2005. We enjoyed raising our family and are really enjoying all the grandkids. We love to go to all soccer/baseball/wrestling/dance recitals the kids are in. We've been fortunate, Scott and Mike live in Co. Bluffs, and our daughter Julie lives in Omaha, so there isn't much that we miss out on. Aside from the family, Terry and I enjoy weekend trips to KC, and taking little mini vacations. We've been married for 39 years.

Have lived back in the 'old home' area for many years now, and have been married to Les for ten years. Still nursing, currently for the Alegent eFocus eICU monitoring facility, which I love and have learned ever so much. I enjoy our church, can't wait to retire and be more involved. Les and I have gone on many small 'road trips' which we both enjoy. Yellowstone is a favorite spot as we plan to retire in Wyoming eventually (and, hopefully I'll get caught up on my reading!) We recently spent a few days in Key West, which was delightful. Grandkids forever keep us busy.

We love to go camping. We have a 33' travel trailer and we have it parked on our property at Woodland Campground near Little Sioux, IA. We spend nearly every weekend up there as well. A nice bon fire and a cold one, good friends, a place to relax.

I've worked in offices in the CB/Omaha area since we graduated.

Enjoy spending time with my family. My mom, who is 82, and my daughter and her husband both have their own campers at the campground as well. No grandkids, but we do have a Puggle grand puppy named Chance. We get to puppy sit with him at least once a week! He comes and terrorizes our 3 cats.

My husband plays Santa and that takes up a lot of our time during November and December. We have a lot of fun with it and this last winter he bought a real horse drawn sleigh. So we refurbished that.

My husband had a massive stroke in December, 2009. So my world took a massive change too. Couldn't have happened at a worst time, when Santa is the busiest. He now is residing in a Nursing Home. I don't wish this on anyone. Your life and plans change in the flash of an eye. Live every day as it was your last. Last weekend our friends at the campground had a benefit for him, in conjunction with "Christmas in July", which is something Ray started several years ago. Despite the hot and humid weather, it was a big success. They had a number of activities all weekend for everyone of all ages and a spaghetti dinner on Saturday night and Ice Cream Social on Sunday, as well as a Silent Auction. There truly are wonderful people out there....even Kohl's Pharmacy in Omaha donated a wheelchair van so I could get him up there for a few hours.

Birthday: 11/26/1951

Married and stayed in Columbia, Missouri, after college graduation. Taught dance for a year in a preschool...enough of that!

Worked at a local bank for 5 years in many different departments.

Helped raise two very musically talented daughters - flute, piccolo, oboe, piano, clarinet, bass clarinet, guitar, handbells and voice.

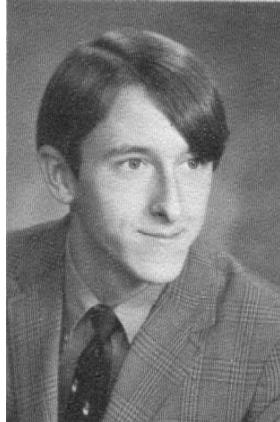

Opened a custom picture framing shop with a close friend Fall of 1981---she moved---I'm still framing pictures ..I guess I found my 'calling'. Thinking seriously about retiring now, though.

Active in church activities and my daughters' schools - Room mother several years, Music parents club at high school, Local high school all-night party for seniors committees, Women's Church Circle, Chancel Choir, ring English Handbells, serve on Child Development Center Advisory Board.

Collect antique photography items with my husband. Also collect any other interesting antiques I happen upon including old advertising tins.

I like to read, listen to music, swim, travel, shop with a friend, and just generally enjoy life. Looking forward to having time to travel more in the near future.

Moved my parents to Lexington, KY. the summer of 2008 to live at an assisted living apartment near my brother and his family. Therefore, don't get to CB much anymore.

After graduating A.L., I lived in Iowa City, IA, Kansas City, MO, Iowa City again, Jefferson City, MO, Dubuque, IA, and finally came back "home" (sort of) to Omaha in 1983. My career involved every imaginable position at a number of radio stations and cable television companies and later turned towards public relations and marketing. I came very close to acquiring my own radio station (a life-long goal) but unfortunately it didn't happen. A few years ago I started a data integration testing and training company with my business partner. As economic conditions have slowed a little lately, I've also branched out -- part-time office manager at a church and doing marketing for some nonprofits. I like to travel as time permits, especially by train. A long time goal has been to move to the Pacific Northwest. Memories: Seth Hills, The Echoes, Concert Choir and Swing Choir. Sure wish I had a computer "back then" because carbon copy erasing and "Wite Out" are bad memories.

I had a busy life for 30 years. I was lucky enough to be a part of history, go and see many places and countries and meet people for all walks of life from all parts of the world. I'd have to I fought many battles for both women's and veterans rights. Right after graduation, I went to KS. and finished my training in computer operations. After graduation I was the 1st female computer operator at Mutual of Omaha. The atmosphere was uncomfortable, so I left, and the libber came out. I was then 1st female and youngest (2) department manager at the old DT/10story Ardans across from Brandies. I later became a manager for them, as well. In early1973 I joined the U S Navy-served 3 active and 9 reserves. I was lucky enough to be one of the very 1st female units to attend the brand new Orlando, FL Boot Camp. We were the beginning of the all "regular Active duty women" in the military. It was no picnic, but I was strong and wanted to serve my country. (Just a note from Chatty Cath--I was the smallest but called all the Cadence for my unit!) We lost 30 some out of 66, but we were honor company--a proud moment for my Navy father of 3 girls! After school, I was chosen to be one of the 1st (and was the 1st for 3 weeks) enlisted females to serve at the National Naval Medical Center, Bethesda! It was interesting for not only the military, but the country in general. I was in DC for the Watergate, leaving of Nixon and coming of President Ford. I was a part many exciting surgeries and visitor to the National hospital. My doctors were a part of history making new techniques and advances in Maxillary/Mandibular cancer savings (with NIH). I did much traveling and was at the Vatican for Palm Sunday 1976 with one of Swedish Guards of the Vatican! I had an audience with the pope! In 1976 I started at IWCC and really found my voice. I became a Veterans Advocate and established many veteran programs. While doing this I became involved in all school matters. In 1977 I served as Vice and then President of student Senate. Next I got married, served with Reserves and Am. Legion, was again a retail manager. Next District Manager for Sarah Coventry jewelry, then I became an agent of Woodman of World Life Ins. Opened my office with Farmers Ins. Group, for several yrs. After falling ill, I took a crooked turn and became a Baker and manager. This was the beginning of my life long Cake business. I became Planning Director for Margarite's Catering (and did my cakes) until a stroke in Jan. 1998 eventually forced early retirement. I keep busy with many things and still do some cakes, and other sweets. I will be making pies and such for a new business this fall. I volunteer at Mercy Hospital and help friend/acquaintances in their time of need. I try to stay active in politics, volunteer often. Gardening is my hobby, and we also like to camp. When I can I'm still addicted to jig saw puzzles. Bob, Izzy and I spend much time walking and letting Izzy swim at Lake Manawa. My mother has been ill and now is in a home style living Alzheimer's facility. I have been completely involved in her care and helping her thru this time with dignity. Miss you all and hope to see you all at the 45th!

Pretty daunting task, summing up 40 years! Left Iowa in 1976, moved to Jacksonville, then New Orleans, then Dallas and back to Jacksonville (really Atlantic Beach) in 1986. Love life here, it's a small beach community (where everyone knows your name) and we live 5 blocks from the Atlantic Ocean. Have discovered my inner beach bum and on weekends and school vacations we walk our dogs, Spud and Lune, down to the beach to see the sunrise. Also bike, run (2 marathons) and read on the beach. Professionally, I've been a special education teacher for 28 years, the last 24 at Ed White High School. Still love my students but not what's happened to the "system". I coach cross country and sponsor the Recycling Club (Project GAIA) and GSA (Gay Straight Alliance). Trying to instill some of those '60's values into today's students! Thanks to all of you who have worked so hard to get this reunion together, really looking forward to seeing everyone.

Birthday: 2/3/1952

My family left Iowa the summer before senior year, which was both sad for me and an eye-opening experience at that time. Even though I graduated from high school in West Long Branch, New Jersey, I've always thought of A.L. as my high school. has been my home now for 33 years. During those years, I've worked as an artist in one capacity or another, both working in full-time jobs and as a self-employed artist - illustrator, graphic designer, cartographer, decorative painter, and fine artist (drawing, painting, and collage). I married in 1978, divorced in 1997, raised two daughters, and I've been with Bob since 1999, by which time our two oldest children had already left home for college.

Bob and I like taking road trips together, most recently to visit two of our children in Oakland, CA, and Portland, OR, with side trips along the way. We're looking forward to visiting my youngest daughter, who just graduated from Iowa State University in May and is now working for an interior design business in Colorado. We also enjoy riding our bicycles in the evenings and on weekends, and I like to read and make art when I'm not at work. Every year I donate artwork to raise funds for community projects

More than anything else, the experience of raising children has changed my perspective of the world and what's important. In spite of some ups and downs, I've had a blessed life - most recently, walking away uninjured from a car accident with a semi-truck that totaled my VW Beetle - which I know can change in a moment, as it has for many people in the past year and for many of our classmates who've passed away.

Some of my high school memories include pep club, football and basketball games, outdoor school assemblies, Giddy Pips, proms, history class with Mr. Nelson, eating at a Mexican restaurant with Mr. Lara and the Spanish Club (an exotic experience at the time), being sent home from school for not complying with the dress code, slumber parties at Becky Samuelson's and Cyndi Andersen's houses, and hanging out with friends at Cristy Creme. And many, many more!

What the heck have I been doing these past 40 years? Let's have a look. November, freshman year in college I married my German professor. We lived with his two boys in a stagecoach stop way out in the countryside. What can I say; it was the early 70's and we were grooving! Today, they'd probably fire him from his position! Unfortunately, due to infidelity and other charming activities (he was charming!) the marriage caved in.

Then I became a cabinetmaker and loved that work more than anything else! But I had an irresistible urge to go to Bulgaria to study her folk traditions including music, dance and ritual. I went in 1983-84 still in the Communist era. It was one of the richest, happiest years of my life. Ever since I have taught music and dance and been in performing groups. I married a second time in 1987 and we had a beautiful baby girl named Kalina (Bulgarian name!) She's now 22 and going to college. That marriage also collapsed for similar reasons. I've been single now 6 1/2 years and it sucks (not always!) Meanwhile, I am a self-employed massage practitioner w/specialties in geriatrics and craniosacral. I love my work!

Education after High School: I received an Associate Arts Degree from Miles Community College in 1972 and a Bachelor of Science Degree from Montana State University in 1985.

Occupation: Special Education Teacher

Spouse's Occupation: Retired Teacher but continues to teach Drivers Education

Names and ages of Children: Kennedy is 34, Jeff is 33, and Amy is 30.

Names and ages of grandchildren: I now have 7 grandchildren!! Payton just turned 13, Dylan is 7, Lexi is 4, Maddie is 3, Katie is 1, Christian is 10 months, and Acacia is 4 months.

Birthday: 10/22/1951

I went to Miles City, Montana after graduating from high school. I never intended on staying, but met my husband and there we were. We made our home in Miles City for 32 years and then decide to change things up a bit and went to teach in Minnesota where Jeff lived. I really liked it there but Scott didn't care for it much--he's an avid bird hunter, (mainly pheasant), and they just aren't as plentiful in Minnesota as in Montana. After two years we moved to Idaho, a bit closer to home--and finally came back to Montana where Kennedy and Amy both lived. It's nice to be back--closer to 2 of our children and of course GRANDCHILDREN!! I just finished my 25th year of teaching and will probably teach a few more before retiring. I am still an avid HAWKEYE fan and would love to get back for a game some day, maybe when I retire! I love most sports and we support our high school activities where we both teach, its nice to stay involved--it keeps me young! I coached baseball, basketball, soccer, and softball when my kids were growing up and also taught Sunday School and Bible School over the years. I use to play tennis and racket ball, but now just golf--or try to. I attend my Payton's & Dylan's sporting events or whatever they are involved in for school. Lexi has her first Dance Recital in a week and I will be there for that--she just want to be a cheerleader, but have hope she will be active in some sport. I enjoy watching and playing with my grandchildren, and can't believe how time has flown by!! Don't lead a real exciting life, but enjoy every minute of it and wouldn't change a thing.

I started working for Omaha Public Power District, but left that for a better job at Enron!!! (Whoops) I was on disability for five years, but have been in remission for ten years, and have worked for Mid-American (formerly Iowa Power and Light). My son Jake was killed in the summer of 2008. Then Ryan and his wife gave me a beautiful grand baby, Rylee. I spend most of my time working, gardening, and spoiling my granddaughter, and step grand children. Ten years ago, my wife and I moved back to Neola where we grew up. I'm a block from St Pat's, and two blocks from the cemetery. I guess I'm home!! I have not been anywhere, nor have I done anything for the last 40 years. I do gardening as a hobby, and love all the grandchildren.

Stayed in the metro area till 2008, then pulled up stakes and headed South to Oklahoma Territory (did you know Oklahoma did not become a state until 1908!) It's seems like anything pretty much goes around here...they have a law that is referred to as a "Make My Day" law. You can get away with murder literally if you get into it with someone who happened to be at your house at the time! I didn't move down here to get away with murder tho (LOL), I decided to take up an old hobby or habit, that I had quit participating in back in the 70's....RODEO. A lot has changed since I had last ran barrels, and a few years back someone came up with the idea to revive the sport by evening up the playing field. They call them "D" (division) races and everyone that enters has a shot at the prize money, if they can stay within 2 seconds of the winning run's time. It makes it real interesting, and a lot of the bigger races have a good amount of added money that goes into the mix, along with trucks, trailers, saddles, etc; And if you're good enough, you can make a living at it too! Because of the Iowa winters, it's not a huge deal up there, which brought me to Oklahoma, us "Sooners" run year around, there's always someplace to go run barrels. I'm having the time of my life, and my first full year here I won two saddles!

Spouse's Occupation:

Names and ages of Children: April Kimnach age 38, Jason Kimnach age 36.

Names and ages of grandchildren: 2 granddaughters age 14. Grandsons ages 17 and 19.

Birthday: 4/14/1952

Since graduation, I've had good times, bad times, and now finally, terrific times. :-) I married Larry Kimnach in July 1970 and moved to Columbus, GA (near Ft. Benning). I moved back to CB 6 months later when the army sent Larry to Germany. We had our daughter in Nov 1971, and I stayed home to take care of her. My hubby was discharged in Jan 1972. We had our son in Dec 1973. I started college at IWCC in 1980 and I went to work in 1981. I graduated with an Associate in Arts degree in General Studies in 1982. I worked for Omaha Housing Authority from 1983-1988. I was project leader for the first successful integrated computerization of a large public housing authority (LPHA). Larry and I divorced in 1986. I moved to Minneapolis, MN, in 1988 and married Roger Melin in 1989. My first grandson was born in 1990. My second grandson was born in 1992. I graduated with a Bachelor of Arts degree in Liberal Arts in 1994 from Metropolitan State University (St Paul, MN). I had 2 granddaughters born (1 each from my 2 kids) in 1995. In 1995, I divorced and moved back to CB. I started classes at Metro Community College in pursuit of a piece of paper to prove what I know about computers. (It's difficult for olde ladies to get computer jobs without paper to prove it.) My daughter and I found an apartment together with her 3 kids in 1996. She and I bought our house together in South Omaha in October 2001. I graduated in 2005 from Metro C.C. with an Associate in Applied Science degree in Microcomputer Technology (helpdesk option). I worked as a stockbroker from 2005 to 2010, providing customer service in a call center environment, helping to make online investing less frustrating for typical folks. I resigned that position in early 2010 to retire and take it easy for awhile. My parents died in 2008 and 2009. My daughter graduated from UNO in 2006, and is a special education teacher and learning strategist for Council Bluffs Public Schools. My son got married in September 2009 in Minneapolis and is a computer network engineer for Target Corporation.

I have been all over living 100 lives. I left my hometown of CB in 1969 when my father was transferred to Houston Texas. Graduated from down there in 1970 and came back to CB. In 1975 I had my first little boy and my second little boy in 1978. That has been my main focus and passion for most of the past 40 years. Making sure that my boys stayed on the straight and narrow. I moved to Rochester Mn in 1985 to pursue my career and the most gratifying thing that came out of that was a huge amount of gratitude that I am on this side of the cell block. Best accomplishments of course were #1, My boys!!, #2 I became a gramma in 2005 and #3 I learned how to ride a motorcycle. I was told I should get a hobby when my boys grew up so that's what I chose. I love it and ride as much as I can. Not sure how much longer I'll be in Minnesota year round. I am grateful I have located and connected with some of my old school friends and hope to see you in July. 40 years HAH. I'm ready for another 40.

I have been all over the United States - first husband was a minister and we moved around a lot during that 24 year marriage. Ended up with three great daughters and a love for seeing the country. I was married a second time for ten years - no kids from that one! I have continued my education - three degrees late in life. I have worked as a nurse, but my true love is in computer technology. I am now implementing healthcare software, and doing other healthcare related consulting for Perot Systems, the consulting branch of Dell systems.

I have been living in Colorado since 1981. Work as a lineman, cable splicer, cable maintenance technician for Northwestern Bell (Omaha) from 1972 to 1981. I transferred to Mountain Bell in '81 and continued working various outside technician jobs until 1992 (now USWEST). Made a career move (USWEST/QWEST Management) to Outside Plant Engineering, OSP Tactical Planning, and finally OSP Technical Support from '92 till 2003 at which time I retired from QWEST. I did several telecom support jobs from 2003 till 2006 at which time we sold our home and went traveling for 2 years. Decided to settle down and built a house (2008) between Florissant and Cripple Creek, Colo. We're at 8,750' elevation on the west side of Pikes Peak. We have spent the past 3 winters in Gold Canyon, AZ to avoid some of the snow and cold weather they have up here in the mountains. We both enjoy hiking and golf.

Moved to Colorado - 1974, married Alan in 1976. Taught music in Cherry Creek for 28 years. Actually, 5 of those years I taught 2nd grade but incorporated a lot of music into the classroom! In 2006 I had the honor of being chosen the Teacher of the Year from my school. Hobby - I sing in a Sweet Adeline chorus of 150+ women - we compete Regionally and Internationally. I'm also in a Barbershop quartet and we came in 7th place this year in our region. Travel - My husband, Alan, and I love to travel and are able to do more now that we're retired!!! Having three grand babies keep us going back and forth to Iowa and Texas. Golf - I started taking lessons about 3 years ago and I love it! We recently joined a club so if I'm not busy singing you can usually find me on the golf course.

I traveled a great deal after college, married Simon in 1981 and settled in Madison, Wisconsin for about twenty-five years. It's beautiful up there. We loved it but it began changing so in the last few years we got the inspiration to return to Iowa so we now live just outside of Iowa City in the little town of North Liberty. I have done a variety of jobs in my long (!) life. Too many rich and varied experiences to summarize here! I've been published a few times, but never anything spectacular. I didn't do much with art, except to love it and raise a daughter who is excellent at it, far better than I ever was! I s'pose my favorite pastime is walking in the woods near and around where I live. I still love nature! I still love walking! I still love and spout poetry! Best of all, I love my family and friends, both old and new, who only manage to become more important to me as time passes! I have thus far survived cancer so that makes me even more appreciative of life!

After graduation I married my high school sweetheart on July 10, 1970. He left shortly for the military. Moving ahead several years--We bought our first home in 1973 on Locust Lodge in Council Bluffs. We were blessed with two beautiful daughters. Many years of involvement with their activities. We spent many hours at running to games, (Kid's Taxi)and other activities. Christine graduated from AL in 1989 and went on to college at Buena Vista in Storm Lake, IA. She also got her Master's from Doane College in Nebraska. She is a teacher at Lewis Central Middle School. Brenda graduated from St. Albert High School in 1993. She attended Iowa Western College in 1993-1994. She received her Para-Educator Certificate and is presently working in an elementary school in Logan, IA. We have had sad times when Rick's and my parents passed away and we have had wonderfully happy times with our daughter's weddings, as well as, the birth of each of our grandchildren. Now I understand the meaning of what my dad always said, "why couldn't we have started with grandkids"! Our lives are filled with lots of programs, sports games, overnight stays, fishing and camping with the family. We have a camper and spend as much time as we can in it. Rick and I love to go fishing anywhere we can find the fish biting! Our girl's and families like to follow us around and camp with us and Charlie loves to fish with grandpa and grandma. With all of the travels and excursions, I have taken many pictures with my camera. Therefore, my passion is scrapbooking. I have gone back to my grandparents pictures and put them in a book and have been working on all pictures from my life, my husband's life and my daughters' lives and anything that has followed. I put together a book from our wedding in 1970 and our 25th anniversary in 1995, and will be busy putting more pictures in the album, as we are preparing to celebrate our 40th wedding anniversary and I will have pictures to add to the book. In 2003, we made a huge decision to leave town and move to the country. We built our retirement home on two acres of ground East of Council Bluffs and wish we would have done it many years earlier. We both have a few years to work before we can retire, maybe by the 50th reunion we will be retired! I am looking forward to seeing old friends and acquaintances at the reunion.

After teaching high school language arts for five years in Ankeny, Iowa, I spent six years as an editor for an educational publishing company in Des Moines. In 2000, I started freelancing from my home, writing and editing classroom products for educational publishing companies across the country. I now teach writing at Des Moines Area Community College in Boone, Iowa. I have also authored two children's novels (see book signing below), and I market three lines of my own products for language arts classrooms.

Mike and I live on 18 acres in the middle of the woods overlooking the Des Moines River Valley, a few miles from Woodward, Iowa.

Pegi and Mike

Pegi, flanked by two book buyers at a book signing in Des Moines, goes on to explain that her biggest accomplishment is having had two children's novels published.

Kelly, our son

My profession has been consistent 21 years with Methodist Hospital at Epply Treatment Center and Richard Young then the last 7 years with Alegent Health at an adolescent drug treatment and now at Lasting Hope Recovery Center – that's a total of 28 years dedicated to people of all ages and walks of life with problems you could only imagine. It has provided me with a lifetime of blessed miracles and un-explicable lessons. I have loved it and hated it and am truly grateful for it...

The 8 years before going to nursing school, I would call my lost and found life - I wandered around trying to figure out who and what I was - looking for answers in a whole lot of wrong and right places - the experience was both painful and fulfilling and has made me a really cool person!!

The most interesting part of the question, however, is hobbies - those too have been variable - with a past history of chronic bike riding, interrupted and redirected as a result of medical issues and a systematic loss of interest. However, being the true "Earth Mother" that I am, I have directed that time and energy I have left to my flower gardens, periodic creative crafting and an on going enjoyment of people.

We have lived in Springfield, Ne. for the last 35 years. We owned a Bike Shop in the late 70's and sold it after three years. I was an at home mom for many years before entering the work force and wouldn't change that for all the money in the world. I worked at Capital School of Hair for three years until I was offered a job at the School in Springfield where I have been since. Ken has worked at Schering Plough Animal Health for 26 years and they have recently been bought out by Merck., Our son Matt is in the band "Straight Out of Jr. High" and we have enjoyed following them on tour from the Hollywood Sunset Strip to Las Vegas and from Minnesota to Texas. Lots of fun. They are on their 5th album and have had quite a bit of radio play in the Omaha Council Bluffs area., Our other two children, Colby, and Jessica, have given us a total of 7 grandchildren. Colby works for Woodhouse Mazda in Omaha and Jessica works for T.D. Ameritrade. As for hobbies, we love to load up the motorhome (we've dubbed the global warmer) and check out one of Matt's concerts or take the grandkids camping. We still make music from time to time but mostly we've succumbed to karaoke.

I joined the Navy a few months after graduation to see the world but little did I know it would be from a submarine! I was an Electronics Tech on the nuclear fast attack submarine USS Snook (SSN592) and worked on the radar and ESM (Electronic Counter Measures) equipment. I got married three years into my Navy enlistment in 1973 and in 1976, after six years in the Navy, I did the dumbest thing in my life - I left San Diego and went back to Omaha where I worked in a TV shop (First TV) for a year. I then hired on with the FAA as an Electronics Tech in Dubuque, Iowa which turned out to be a turning point in my career. After a year in Dubuque I transferred to Waterloo, Iowa for a promotion and spent another year there working as a radar tech at the airport. By now our son, James, was born and it was time to move for another promotion. This time it was to Oklahoma City to work as an Electronics Technician Instructor at the FAA Academy. That was in 1979 and we have been here ever since. I taught an Automated Radar Terminal System called ARTS IIE to technicians and engineers who maintain this equipment at about 140 airports around the country, helping make it safe for you (not me) to fly! June 30, 2007 was a significant day in my life as I retired from the FAA, after turning 55 years old, with 36+ years of government service, taking my Civil Service retirement while it was still there before the government screwed it up. I have been enjoying every minute of the retired life. My wife, Diana, and I will be married 37 years in September, 2010 and have one son, James, 31 in 2010. We built our own house about 20 years ago and live on 5 wooded acres in the country about 20 miles SW of Oklahoma City. My hobbies include sailing (first and foremost - we own a 31' sailboat on Lake Texoma), ham radio (KB5REX), web page design, woodworking, photography, just to name a few. We started our own part-time business in 1999 doing extruded concrete landscape curbing but gave it up in 2008 so I could enjoy the retired life better. However, we still have the equipment so if you would like to start a lucrative part-time business give me a call - have I got a deal for you.

I would say my most memorable experience since graduation was representing Iowa in the 1972 Miss World, USA pageant, with Linda Carter (Wonder Woman) being the successful contender. As some of you know, I moved to Las Vegas, NV, in 1985, upon marrying John Damon. Following our separation in 1994, I chose to continue my life in Las Vegas for another 14 years, and have never remarried. However, after 23 long years of employment as a Social Worker/Deputy Public Guardian, I returned to Iowa in October 1998, where I reside with nature on top of a gorgeous bluff just north of Missouri Valley, IA. It is truly God's country here; and just what the doctor ordered, to regain the serenity and peaceful mind left behind when I moved to the city. Though I have no children of my own, I have been blessed over the years by sharing close relationships with other peoples' children, which have satisfied my maternal instincts. I have also cared for several pets throughout my life, which have taken on the status of "children" in my book. I currently have 3 cats and 2 dogs; all rescues, and all considered my very special children. I am now a 13 year breast cancer survivor; another of God's blessings. Throughout the many trials, tribulations, and lessons I have learned over the years, I believe the most important ones have been: to appreciate each day as it is lived; to value one's true, blue, forever friends; and to count ones blessings, as opposed to dwelling on one's disadvantages. I am truly grateful for the glorious life God has granted me.

40 Years --Yikes!! I retired in 2007 after teaching 33 years in Sioux City, Iowa. I taught grades K-2 and every day was a new experience!! The day I retired we moved to our home we built in Okoboji, Iowa. During the winter months we live in San Diego, California. I love being by the water but I don't seem to get into it as much! We travel down to Council Bluffs and Omaha often since our families are down there. I have a few ideas I would like to accomplish and will slowly work on them. Maybe at the next reunion I will have more to report. Looking forward to seeing everyone - had great fun in High School.

I kept myself busy with theater for quite a few years; playing flute in the orchestra or singing/dancing on stage. I taught dance for a while at the Omaha Community Playhouse. We lived in Michigan for a couple years and then moved back to Omaha. Maggie came along and is the delight of our lives. She's a mini-me right now with her singing, dancing, and playing the violin.

Gene and I are active in church and politics (makes for lively conversation!) and volunteer as much as we can for different organizations. I'm involved with the Heartland Community Flute Choir, and I do an occasional show. I can still dance up a storm but age has caught up with me so I'm not as "limber" as I used to be.

My job is just a job and I'm counting the days to when I can retire and do something fun.

After high school I went to college part-time and worked full-time and in my spare time I became involved with community theater at Chanticleer. It was through the theater I met my husband, Jerry, also a performer and music director. We met in 1974 and were married December 27, 1975 - this year is our 35th anniversary! We lived for 4 years in NW Iowa then came back to the metro so I could finish my Master's degree and as we were moving in, Jerry got a call from CB Community Schools, and he worked for them from 1978 until he retired. We continued our involvement with Chanticleer, and both of our kids were blessed with musical abilities, so I cut back on my participation so they could be involved in the theater. Now that Jerry is "retired" he has cut back on some of his theater but when our best friends Bob and Denise Putman of B & D Productions call, he can never seem to say "no". These days I help them with the box office and other production jobs vs. being on stage. And this year I am finishing up my 25th year with Millard Schools. I feel remarkably lucky to have found a job that is not a 'job' -- I love what I do (not to say there aren't days or problems that come up), but I think I am looking forward to being able to retire myself in 2 years or so. Besides doing theater, I love to read and I love gardening, but my biggest joy is in being with my granddaughter Lilli! She is so smart, and what makes me really appreciate her is that she is just like her mother was as a child - a very strong-willed child, active, healthy and with her parents' short temper! From my perspective now, I can laugh - and frequently do, especially when Julie says "I wasn't that bad, was I?" -- my response is "no you were worse!"

After high school, I went off to Iowa State University where I met my wife. I took a few classes too. We were married in 1974 and I graduated in 1976 with a Masters degree in Structural Engineering. I had planned to stop after the BS degree, but they paid me to get my masters degree and I couldn't pass that up. After college, we moved to Ann Arbor Michigan where we started our family. Our first 2 boys were born there. After 8 years in Michigan, I was transferred to Southern California where we have lived for the last 25 years. Our 3rd son was born here. We have 2 granddaughters who now live in Las Vegas, so we make a lot of trips there. Over the years, my engineering work gradually shifted to computer programming which I enjoy very much. I have been fortunate to work on many interesting projects in my career from nuclear power plants to computer animation. My work has taken me all over the country as well as England and Japan. As for hobbies, I have always enjoyed woodworking and photography. We also like to travel. We used to go camping when we traveled, but our backs now prefer something a little softer than the rocks on the ground. A lot of our travels are now on 2 wheels. My wife and I each ride a motorcycle and it is a fun way to travel. It really changes your perspective on how you see things when traveling. It has been fun watching our children grow and take on new responsibilities. Our oldest son has a family of his own and our middle son is about to start his new family. We have been and continue to be very active in our church. We have been leading or working with the children's groups for the past 20+ years and our youngest son is now one of the youth leaders. Retirement is somewhere in our future. We are looking forward to traveling more and watching our grandchildren grow.

Birthday: 01/06/1952

After graduation from ALHS, I earned a Bachelor's degree in elementary education from Dana College in Blair, NE. From there, I set out to "make a difference" in the world of education! I taught my first class of third graders in Osceola, NE. In the fall of 1975, I moved to Underwood, IA and taught second grade for two years, then third grade for the next 30 years. During that time, I had the pleasure to work with a multitude of eager & talented young people! Staying in the area allowed me to follow their progress into adulthood and also allowed me the opportunity to teach many children of former students. I am most proud of being presented with two Who's Who Among America's Teachers recognitions and a favorite teacher award in the Governor's Scholar Recognition Program because these nominations come from former students. At the end of the 2006-2007 school year I took early retirement from teaching. Since November 2007 I have been working as a part-time teller at Liberty Bank in Council Bluffs and volunteering in a couple of classrooms back at Underwood Elementary. Richard & I met while we both had horses at the same trainer's barn. Since we shared that interest, we have shown American Saddlebred & Appaloosa horses and Shetland & Hackney ponies in many areas around the Midwest. Some of the shows included the State Fairs of Iowa, Nebraska, Minnesota, and Illinois as well as other shows in those states plus some in Colorado & South Dakota. We still enjoy going to watch these shows and helping my sister, Jackie, with her horses and Hackney pony. I also truly enjoy stamping and scrapbooking and try to spend as much time as I can "creating"; but it doesn't always end up being as much time as I'd like it to be. Richard spends some of his spare time with woodworking projects. Attending some of the old-time country music festivals and traveling are a couple of other interests we share. Most of our recent travels have taken us to Colorado or Kentucky & Virginia to visit friends and family members. I have also been enjoying reconnecting with many classmates and former students through the Facebook connection.

Birthday: 5/28/1952

I spent 36 years in California - 13 years in the Fresno area (central inland); 10 years in Santa Barbara (southern coastal area); and 13 years in the San Jose/San Francisco Bay area. In Fresno I primarily worked in accounting in the fruit orchard business. Then I joined my family in Santa Barbara where we owned and operated a real estate business selling business opportunities. Then we (the family) opened a series of dry cleaners in the San Jose area; first I did the accounting, then I managed 1 dry cleaning plant, then 3, then 10. The family (in 2001) sold the businesses and I've been bouncing around since then. More accounting and sales, in San Jose before moving to Minnesota in 2007 to work for my brothers' dry cleaners in the Minneapolis area. I'm currently in sales in the fashion industry and enjoying it a lot.

Throughout all the years and moves I've maintained a private astrological consulting side business, which is my primary love and hobby. I just closed my astrology web site, which I designed, as I will redesign it for my next incarnation when I move back to California in June-July.

My jill-of-all-trades personality has led me to and through an interesting life with lots of interesting people, places and things, so I bypassed a lot of traditional roles but it's been suitable for me and I've had a lot of surprises and fun along the way, and I'm expecting more....

p.s. Sorry, don't think I'll be attending the reunion in late July as I'll still be in the throes of moving back to California, (unpacking and settling in) in early July.

I was married in 1972 and my husband and I have lived in the eastern part of Iowa, IL, ND back to IL and finally to MI where we have lived the past 26 years. I received a bachelors degree in social work and although never used that degree professionally have used it many times over in volunteer areas. I was very active in the 80's and 90's setting up a soccer program in Saline, the town where we have lived since moving to MI. My husband and I were even voted Citizens of the Year in 1991 for our work. I have chosen volunteer work over a professional job. It has been a very rewarding "career" for me and has given me the freedom to raise my two wonderful sons and now help care for my two beautiful granddaughters. My husband Kenn is close to retirement but we have no plans moving away. We plan to stay where we are at close to our church family and friends.

I lived in Council Bluffs until 1975. I married Debbie Fisher from Underwood on May 20, 1972 (married to the same woman for 38 years.) I taught math one year at Longfellow J.H. in 1974 and that was enough for teaching. I played fast pitch softball for about 10 years (3 or 4 nights/week). As the kids started coming, I gave up softball to support them in their school sports and music activities. I helped coach baseball, soccer, wrestling, and softball. Jess was Iowa AAU State wrestling champ in 7th grade, and wrestled for Underwood when they were state champs two years and 2nd place the 3rd year. He is also the only individual to attend Underwood to be selected to play on the Iowa State all star baseball team. Brent's specialties were basketball, track and vocal music (all state). Lea excelled in gymnastics, volleyball, softball, and track. Laura participated in the same sports and was the marching band drum major for three years. She also got a scholarship at IWCC for jazz band. Cortney is in concert choir and band. I play golf with my sons on Father's Day and don't have any real hobbies.

I have lived in seven states, Colorado to North Carolina. I met my husband in Sedalia, Missouri. We were married 20 years, but divorced in 1995. My greatest accomplishments have been raising my three children, and getting my Associates Degree in Business and Marketing at age 57. I enjoy all kinds of church activities and listening to and making music. I still enjoy singing in church, I have sung in groups and solos. I enjoy boating, pulling a tube, and playing Scrabble. My best times have been spent with my best friend of all these 57 years - Jesus!

Birthday: 04/29/1952

I teach, I sing, I design greeting cards, I design simple jewelry, I support more research for Rheumatoid Arthritis, I love to bake (gluten-free)(and it is very challenging at 8,000 feet), I really enjoy my life and many friends, and I love living in Colorado! I have been fortunate and have traveled all over the globe but, the US is still my favorite "destination"., I have worked with many "special" children and teach the best class of all...Preschool/ 3-5 years old. I have been married to the same man, Tim, (an engineer, imagine that!) for 32 years and we have two wonderful children. Byran (28) is getting married July 31(the reason I can't make it to this reunion) and Kristen (25). One of my favorite "hobbies" is discovering small towns across the United States. Iowa is rich with them and people are always so friendly. Only one state I have not been in, Alaska, and it is waiting for me. My next "hobby" will be to write about these experiences someday. These past 40 years have been long and exhausting at times, but well worth remembering. I have many fond memories of classmates...elementary thru high school...I remember most fondly, Lisa Miller, gone from us now, but never forgotten. Growing up in a "haunted house" is something I will never forget either...just ask some of the High St./10th Avenue kids. Have a wonderful reunion everyone.

Birthday: 10/5/1952

Rich and I have lived in Colorado the past thirty two years, which means we have been married thirty two years, dated ten and actually knew each other since age five.....whoa!!! Raised two beautiful, independent children, neither married yet so no grand children!!!! Lauren is an event planner for National Distribution and loves her career here in Denver. Matthew graduated Construction Management and is a Project manager for Enclos, an amazing company based out of LA where Matthew lives. Rich and I have had an exciting, entrepreneurial life. He was a Broker, Baseball card shop owner, Contractor, Insurance Producer. We had our own radio show for a couple of years helping people get out of debt and educating them on Wealth Principles which we continue to be involved with. You rarely see Rich at the reunions because he does and has done Ragbrai for the past 17 years! I Was Physical Therapist in Outpatient Orthopedics for years and then had a private business, including Health and Wellness concepts, working with athletes in a fitness center, nutrition and cellulite reduction. I also have my Insurance Producers license and work closely with Rich, from the radio to individual clients. Most recently I am heading back into Physical therapy, this time researching and learning more regarding the aging population/Gerontology. We love our workouts, travel, being with our family and friends whenever possible. Look forward to seeing everyone. Rich and Sally

I have been in the Council Bluffs, Omaha, Missouri Valley, Honey Creek, Crescent area since graduation. My wonderful husband, Daryl, & I have been married 35 years. We have 3 great kids & they have blessed us with 12 beautiful grandchildren and #13, Olivia will be here in January 2010. I have held several management positions in my working life, my favorite being my dream job of dealer and then Table Games Supervisor at Harrah's Casino for 6 years. That all came to an abrupt halt when I suffered a stroke in 2004. I have recovered nicely, but am unable to resume that particular career path so I am now employed at Ray's Transfer Co. in Council Bluffs where I have the privilege of working in the office and occasionally on the road with my husband. My hobby is bowling. I bowl in 3 leagues a week and participate in City, State & National Championship competitions. I hold 13 City Titles and in 2006, my 1st competition following my stroke, I ended up 54th in the nation in my division in the National Championships in Reno, NV. I also enjoy working with my fellow classmates in planning our class reunions.

After graduating from Oberlin in 1974 with a Bachelor's degree in organ performance, I moved back to Omaha and lived there working as an organist, accompanist, and singer with various churches, the Omaha Symphony, and Opera/Omaha. Also did many roles on the stage at the Omaha Community Playhouse and other theaters, including Eliza Doolittle in My Fair Lady.

In 1983 moved back to Ohio to complete a Master's Degree in Voice at Kent State University, and then moved to Akron where I made my new home, working as a church musician and voice teacher. From 1989 through 2002, I worked as a classical music publicist for Telarc International, an independent Grammy-Award-winning recording company in Cleveland that pioneered digital recording and specialized in cutting edge sound technology. While with Telarc, I helped publicize recordings by The Cleveland Orchestra, the Atlanta Symphony Orchestra, Robert Shaw, the pianist Lang Lang, and many others.

In 1999 I moved to Chattanooga Tennessee and stayed there for three years while still working for Telarc. I enjoyed my time there learning about the south and exploring the beautiful Smokey Mountains, Atlanta, Nashville, and Knoxville.

I moved back to Ohio in 2002 to be a full-time Director of Music and Organist at Akron's historic First Congregational Church, the first chartered church in the city.

In addition to the church job, current projects include teaching organ and voice at the University of Akron and organ at the College of Wooster, playing organ and harpsichord for the Akron Baroque Orchestra (in residence at my church), and singing with the Chamber Music Society of Ohio, a professional chamber music ensemble.

Hobbies include cooking for friends, watching "House," "Trueblood," and "Project Runway;" movies, reading humongous sci-fi fantasy epics, and walking and biking in the Cuyahoga Valley National Park.

Birthday: 5/15/1952

After leaving ALHS, I went to the University of Nebraska where I graduated with a BS in construction management. During my junior year of college I married my high school sweetheart, Pat Neve.

I worked in the construction industry in the Lincoln and Omaha areas until 1979 when I joined Hallmark Cards and moved to Enfield, Connecticut for 2 years. Following that we moved to the Kansas City area where we still live. I've worked for Hallmark for 31 years and have been in my present position (vice-president of facilities and real estate for Crown Center Redevelopment Corporation) since 1988.

We have two wonderful sons. They both married dentists. Our older son, Matt, has just finished dental school at UMKC and also has a law degree from the University of Kansas. Our younger son, Nick, graduated from Kansas State University and is a vice-president with Jones Land LaSalle Real Estate. They all live in Kansas City.

We also have two grandsons. John Jack (JJ) is 1 year old, and Jacob Carter is 2 months.

Pat and I both enjoy traveling, snow skiing, and golfing, but our true love is sailing. We spend most summer weekends on our sailboat in Stockton, MO. We also enjoy chartering sailboats in the Virgin Islands. We are active in the United Methodist Church.

After high school I went to SWCC in Creston, IA for 2 years, played basketball and made an attempt at being a student (with no success). Married in 1972 and drove a truck for a year in Omaha. I wanted to try a desk job so I went to work for a finance company in Des Moines and was transferred 11 times in 7 years to different offices and never left the State of Iowa. In 1980 I went into the insurance business as an insurance agent and will retire in April, 2010. I married LuAnn in 1996 and together we have 16 grandchildren and as of today we are only aware of one addition coming soon. We bought 40 acres in southern Iowa in November of 2008 and built a new home last year on the acreage. In April when I retire I will move out of Cedar Falls, IA which has been my home for the last 21 years and become a hobby farmer. Plan to do lots of Conservation work as well as hunting turkey, deer, and any predators I can.

After finishing school in '87 I have maintained a private practice in suburb of St. Paul where I am also President of our corporation. We have 3 offices and I have 4 partners. In 1994 I began leading dental outreach trips to Ukraine to care for orphans and have returned almost every year since then. In St. Paul I work at the Union Gospel Mission doing dentistry for the underprivileged. Also in '94 I founded a continuing education group for dentists and dental team members called True North Professional Studies. We continue to provide high quality CE to the East Metro area of St. Paul. In 2007 I began speaking at conferences around the country on clinical and leadership subjects. I subsequently founded LionsGate Leadership Coaching which is my professional speaking company. I have been fortunate to be named a Top Dentist by my peers in Minnesota Monthly and Minneapolis-St. Paul Magazines. My hobbies are golf, cycling and writing. I also work to increase my skills as a speaker and was blessed to win the National Spotlight on Speaking award from the Speaking Consulting Network. My wife, Terri and I have been married 37 years and people in Minnesota call her St. Teresa of Arden Hills because she has put up with me for so long! God has been abundantly gracious to us and me in particular because He's taken a life of bad decisions and total screw ups and made something worthwhile out of it. For that I am truly grateful!

Since the last reunion I've spent most of my time redefining (upward) what I consider to be middle age.

When not occupied doing that I tend to busy myself with too much volunteer work. The primary culprit is the Historical Society. While it can claim great quantities of time, I do find it interesting and I think worthwhile. It's also given me the opportunity to coauthor a couple of local history books with the Society's president which has been quite a learning experience; we have our third collaboration planned for release in the fall of 2011. A position on Amtrak's national advisory board (ACAC) the past five years has taken me across a hundred thousand miles or so of steel rails and seemingly claimed just about that many hours of my time as well.

I occasionally do what I'm supposed to be doing and show up for work; still drilling small holes in teeth for a living at Warner Dental in Council Bluffs.

Barb and I have been married 27 years. Son Mike is a student at UNO, son Steven will attend Creighton University for his freshman year this fall.

After graduation from college, I taught 2nd grade for two years at Christian Elementary School in Springfield, Illinois. Then a temporary summer job for the state turned into a 30 1/2 year career. I retired from the Illinois Department of Transportation in December 2009. I met my husband at volleyball at church, and we got married in 1982. Since then we have built our home in the country and added on to it once. When we're home, we keep busy mowing, landscaping, and taking care of 2 horses, 2 dogs, and now 2 cats. A friend who worked for a publishing company asked me to write a book of bulletin board ideas, so I became an author. A couple years later my friend and I co-authored two more books. Gary & I are involved in several church activities and served as youth group sponsors. Almost every year since 1998, we have participated in mission trips to the Dominican Republic or Mexico. For our 25th wedding anniversary we decided to take a "real" vacation and went to Hawaii. We liked it so much that we went back again this summer with a group of friends. For the last couple of summers, after we upgraded from

tent camping to a small vintage travel trailer, we have gone camping about once a month with some friends from church. We recently upgraded to a little larger travel trailer. My hobbies include reading, crafts, scrapbooking, gardening, swimming, and snow skiing.
